Kube Computers

What it is A new boutique for chic geeks looking to purchase a desktop or laptop computer in a friendly atmosphere with knowledgeable, straightforward salespeople.

What's in-store Whether you're looking for a flat screen, a printer or a custom-built computer, the sky's the limit when it comes to brands and models. And to keep your tech looking trendy, there's a selection of fashionable laptop bags, sleeves and accessories by Canada's own Melissa Beth Designs and Alexa Designs as well as Talene Reilly (loved by Oprah), Crumpler and Moonsus.

The extras No complicated mumbo-jumbo: Using laymen's terms, the staff help you decide which purchase is perfect for you. Plus, they service almost all non-Apple computers and laptops. – C.D.

2921 Cambie St. • 604-873-KUBE • www.kubecomputers.com

• Prices: \$28–\$3,849
